

## **Foundations for “omics”**

**What: Practical Bioinformatics**

**Where: ARC-Irene, Pretoria**

**When: November 2016**

**Contact: linda.dewaal@cpgr.org.za**

**Cost: R5000/participant**

**Number: 10 participants per course (own laptop required)**

### **Workshop Program**

**( a combination of lectures and tutorials )**

**Bioinformatics, an introduction to data analysis**

**Sequence to server – the history of Bioinformatics**  
**Data driven flavours – the “schools” of Bioinformatics and what they can do**

**Practical Bioinformatics**

**Inside the black box – an in depth look at a bioinformatics solution**  
**Bang for your buck – how to get the most out of a bioinformatician**

**Bioinformatics without a bioinformatician**

**Tools of the trade – an overview of what is available**  
**Hands on – using tools and analysing data**
